

FREERIDE EXECUTIVE task

Freeride Executive

Whether it be at the office or plummeting down a ski slope in the middle of the night, you need to be able to adapt to changing circumstances. That's why we've developed the Freeride. Equipped with a myriad of different parts and adjustments, the Freeride allows you to build a chair that suits all of your specific needs, and can be tailored to fit anyone in the office – from a promising intern to a high-rise executive. Just make sure to bring an extra pair of gloves. It's chilly at the top.
